Total	£73,522	£74,182	£30,213	

***Governance and Accountability for Local Councils A Practitioners' Guide (England) March 2014**

3.74 Most assets will be first recorded in the asset register at their actual purchase cost. In some cases the purchase cost may not be known and a proxy cost should be substituted. A proxy cost is a value for the asset which is estimated by the council based on external advice. Councils may apply the insurance value of the asset at the time of first recording as a proxy. Whether actual or proxy cost is used, for accounting purposes the first recorded value of the asset will not change throughout its life.

3.75 Whatever asset valuation basis is applied, the method used (actual or proxy) should be recorded in the asset register. If for some reason the council decides that the basis of valuation is to be changed, the change should be applied consistently to all fixed assets. In such an event, the value shown in Box 9 of the annual return for the previous year should also be changed to the same new basis and clearly marked as 'RESTATED'. The council should provide a justification and explanation for the change to the external auditor.

3.76 In the special case where a local council receives an asset as a gift at zero cost, for example by transfer from a principal authority under a community asset transfer scheme, the asset should be included in the asset register at cost. However, it is strongly recommended to ensure that such assets are always disclosed in Section 1, Box 9 of the annual return councils should assign a nominal one pound (£1) value as a proxy for the zero cost. The use of the £1 proxy is particularly important in cases where a council operates an asset registration system that requires a positive value for every asset. Any costs of bringing gifted assets into productive use should be expensed as revenue items.

3.77 Many councils own assets that do not have a functional purpose or any intrinsic resale value (for example, a village pond or war memorial). These assets are often referred to as 'community assets'. Councils should record community assets in the assets register in the same way as gifted assets (see 3.76 above).
